

**The Harmony XL™ laser/IPL system from Alma Lasers is without doubt the world's leading and most sophisticated multi functional system for all light and laser based skin treatment combinations.**

**Alma** Lasers®  
Wellbeing Through Technology

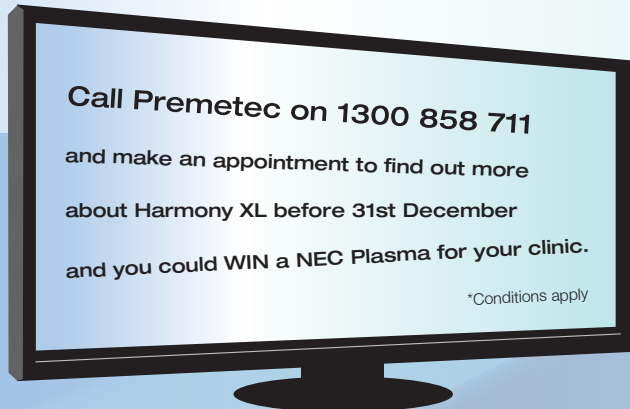

This revolutionary system allows you to select your own options for today's needs and add capacity to treat new areas in the future without the need to buy additional lasers or more "advanced" machinery.

- One platform
- Enables multiple treatments
- Seven distinct technologies
- Over 60 FDA cleared indications - TGA registered
- Guaranteed upgradability
- Customizable to fit your practice & help you grow
- Easily transportable
- Affordable and reliable
- Marketing support and excellent clinical training

*One "platform" with over 60 FDA cleared indications giving you the greatest range of treatment options to meet the needs of your clients.*

The technology has been carefully selected and refined to not only provide excellent safety and efficacy, but to ensure the highest levels of predictability, reliability and reproducible results.

Harmony XL enables physicians to perform the widest range of applications ever available on a single system creating the greatest opportunity for business growth.
